

PPC Agenda Item No 6

Parish Legacy

As previously reported we have received a legacy in the region of £30,000 and we need to decide how best to make use of this generous gift, for the lasting benefit of the parish community. We are looking for ideas on how to utilise the funds to ensure a lasting benefit to the Parish rather than a one off spend. As an illustration, a few years ago we received a very generous legacy which we used it to cover the costs of the refurbishment of the priest's house. Not only did the work improve an unused and deteriorating asset, it has provided the parish with a significant annual income from being rented out.

We would therefore like to invite proposals. Each proposal should include details of how it will benefit the parish and how it might be delivered.

Once we have a workable list of options (and there is no need to rush at this), we need to find a way of consulting the wider parish, to get their views.
